Providing incentives to reduce air pollution through the use of clean alternative fuel vehicles.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that Washington state faces threats to its economic vitality, public health, and environment from the ongoing and increasing use of gasoline and diesel fuels in motor vehicles. Motor vehicle emissions from petroleum fuels account for more than half of all air pollutants and almost sixty percent of total carbon dioxide emissions in Washington.

Finds it is important to begin addressing the negative impacts of continued gasoline and diesel fuel use. Addressing motor vehicle emissions is further needed because of the expected increases in population and vehicle miles traveled, which threaten to erode air quality gains made over the last decade.

Providing penalties and remedies for terrorism offenses.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the events of September 11, 2001, have focused our nation's attention on the importance of preparedness in preventing, investigating, and prosecuting acts of terrorism against its citizens.

Finds that, to be effective, this effort requires a partnership among the federal, state, and local governments. In furtherance of this partnership, it is the legislature's intent to strengthen the laws of the state of Washington to better protect the health and safety of Washington state and its residents from acts of terrorism.

Declares an intent that this act be interpreted to provide the greatest measure of protection and safety for the people of this state and to preserve and protect their constitutional rights, including the right to petition their governments and to exercise their rights under the First Amendment to the United States Constitution.

To assist in achieving these goals, the legislature: (1) Encourages the relevant agencies to conduct a pilot project that tests an interagency coordinated system for processing permits for alterations or repairs of mobile and manufactured homes; and

(2) Recognizes the task force's work in reviewing agency rules related to alteration permit requirements and supports the task force's recommendations to the agency regarding those rules.

Finds that assisting consumers to understand when an alteration of a mobile or manufactured home is subject to a permit, and when it is not, will improve compliance with the agency rules and further the code's safety goals.
